

# MyDyalog and Other Backroom Processes

Andy Shiers, COO

DYALOG

Sicily 2015

# Summary

- [dss.dyalog.com](http://dss.dyalog.com)
- [my.dyalog.com](http://my.dyalog.com)
  - Enhancements
- Internal systems
- \*.dyalog.com & friend

# dss.dyalog.com

- No further updates
  - Since end of January
- Will soon take all content down
  - Except to allow the patch wizard to get files
    - Latest patch wizard refers to my.dyalog.com
    - Does this affect you - does your IT department need to know ?
    - Will redirect all requests to my.dyalog.com

# my.dyalog.com

- Allows you to download what you're entitled to:
  - Installation images
    - Windows: made infrequently, but patch
    - Other platforms: new installation images at regular intervals
      - If you want one sooner, ask
      - Pi installation images from [packages.dyalog.com](http://packages.dyalog.com)
  - RIDE
    - Work in progress

# Version control

- Can now add additional licences
- Cannot (yet) change existing licences

# my.dyalog.com

- <https> only
- Now includes a file upload/download mechanism
  - Easiest method for most customers
  - Exceptions will be made

# Windows Patches

- For interpreter exes and dlls
- .NET bridge files will be available with .NET support and all Dyalog exes and dlls
  - One-stop update to latest versions
  - .NET-only updates still available
  - We will replace this mechanism
- Now can download zip file containing all 4 patch files for a version/edition

# Builds and QAs

- All platforms build from one source tree
  - Windows, Linux, OS X, Pi, AIX
- All builds and QAs automated, each night
  - 86 -1 10 interpreters a night
    - Depends on where in the release cycle

# Shuffle QAs

- Now running shuffle QAs
  - apl -DS
  - Mentioned later in the week
  - 50,000+ times longer to run than standard QAs
  - Pick up often un-reproducible errors
  - We're happy to run your apps with shuffle
