

## JOHN MILLER

John Miller is a Founding Principal and Director of Hologram Business Intelligence ([www.hologramBI.com](http://www.hologramBI.com)).

Hologram software is sold with specialist consulting and modelling services. Local clients include SG Corporate Investment Bank, Savings and Loans Credit Union, and Cooper's Brewery Limited.

Hologram also operates Australia's first fully hosted and managed Business Intelligence bureau service for financial institutions.

From 1997 to 2003, John was contracted to design and develop the Quantum Treasury Risk Management system, QRisk. QRisk has become an industry standard as part of US company Sungard Treasury Systems' AvantGard Risk solution. Sungard is a global leader in treasury systems.

John's academic qualifications include BSc (Computer Science) with Distinction, a Graduate Diploma SIA, a Master of Applied Finance and AFMA Dealer Accreditation. He has also lectured in Business Studies at TAFE and has been a guest speaker on Business Intelligence at various conferences. In 2006 John participated in the Governor's Leadership Foundation (GLF) Program and is an active fellow of the Leaders Institute of South Australia ([www.lisa.com.au](http://www.lisa.com.au)).

John has a merchant banking background and has worked on trading floors in Adelaide, Sydney and London. As Chief Manager of Treasury Risk Management of Societe Generale in the 1990s, John was responsible for designing risk and pricing models. His Quantitative Risk Management expertise spans interstate rate, currency, equity, commodity and energy markets.

In 2000 John returned to Adelaide with his wife Hayley and three young children, Declan, Lachlan and Evie. His passions include soccer and spending time with his family and friends. He manages to combine all of his passions as a soccer coach for Rose Park Primary School and loves family holidays and his season ticket for Adelaide United – go the Reds!
