Dyalog Ltd recently announced the 10th annual APL Problem Solving Competition.

APL is a high level language available both in free and commercial versions. For information on Dyalog Ltd's implementation of APL, see <http://www.dyalog.com>.

Dyalog Ltd invites students worldwide to put their programming and problem-solving skills to the test by using any APL system to develop solutions to ten questions and solve a series of problems. This is a contest for people who love a challenge and learning new things for fun, with the added bonus that you can win one of 18 cash prizes totalling \$6,500, including a grand prize of \$2,500 and a trip to Belfast, Northern Ireland, to attend the annual [Dyalog Ltd user meeting](#) in October 2018. You have until 13 August 2018 to submit your entry.

For the rules, eligibility criteria and to enter, go to <http://www.dyalogaplcompetition.com/>.

Sample Facebook Post

Do you want to challenge your programming and problem-solving skills in a fun, brain-teasing competition? Then join the 10th annual APL Problem Solving Competition and compete for cash prizes and a trip to attend the annual Dyalog Ltd user meeting in October 2018. You have until 13 August 2018 to submit your entry. See <http://www.dyalogaplcompetition.com/> for more information.
